P E L A G A

BALI'S FIRST AGRO-TOURISM SITE

Set in 18 hectares in central Bali, the eco-friendly property nurtures and supports the natural offerings of the land and environment whilst maintaining the lavish experience your break deserves. The inspiration of this property comes from the “Tri Hita Karana”, meaning harmony with people, harmony with God and harmony with nature - an ancient Balinese philosophy the family of the Bagus Discovery Group firmly holds onto.

More than 17 hectares are used strictly for organic farming and manufacturing, providing a variety of healthy and organic foods such as fruits and vegetables which are sold throughout Bali, and you can also enjoy during your stay. The site caters to those wanting a private experience in one of our 30 country-style Superior Farm Rooms and 16 Luxury Farm Villas surrounding the swimming pool and 2 Two-Bedroom Pool Villas overlooking the green valley, as well as to families wanting to spend a holiday close to nature and camp in our tents at our camping ground. Tranquillity amidst harmonious tropical greenery also makes Bagus Agro Pelaga a perfect honeymoon destination for couples to celebrate their romance.

Explore Balinese enchanting culture and fascinating tradition through a great array of activities, such as a tour to Pucak Mangu Temple, farming lessons, yoga in nature, and experience a Balinese massage to name a few. Our restaurant, meeting rooms with VIP holding lounge facility, yoga and meditation pavilion, gazebo and children's playground are all situated on this sprawling mountainous property. Situated at 950 meters above sea level, Pelaga Village offers fresh mountain air and magnificent panorama. Experience the magnificent fusion of traditional “Tri Hita Karana” and agro-tourism at Bagus Agro Pelaga.

BALI MAP

Situated between Java and Lombok, the island of Bali is located 8 to 9 degrees south of the equator with the Java Sea to the north, the Indian Ocean to the south. Bali's covers an area of 5,636 km² or 0.29% of Indonesia, measuring just 90 km long the north-south axis and less than about 140 km from west to east. Divided into three areas of water, the North Bali Sea is about 3,168 km², the East about 3,350 km², and the West about 2,982 km². Bali Sea covers an area of 9,500 km². The North Bali sea runs along the coastline of Buleleng, the East Bali Sea runs along the coastline of Karangasem, Klungkung and Gianyar, and the West Bali Sea include the coastline of Badung Tabanan and Jembrana.

Bali has a long chain of history from the ice-age era (pre-historic time) to modern, global civilization era. With a dynamic characteristic indicating selectivity and flexibility, the Balinese culture initially reflects a configuration of an expressive culture dominated by religious, solidarity and aesthetic values. Nowadays, it develops along with the adoption of foreign values especially in the aspects of the economic, science and technology, as a result of the global modernization. In general, the history of Bali is divided into three different eras including the pre-historic, the Hindu-Buddhist era and the modern culture.
